

Today we

- 1) Took a quiz.
- 2) Made a poster.

...neither of which needs to be made up if you were absent. (Your semester grade takes an average of all your quizzes; an average isn't affected by a missing quiz.)

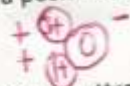

Notes from today:

Purpose: How to draw ions in water.

Warmup: Write the correct formula of silver phosphate

Hint: (Ag⁺) with (PO₄³⁻)

Ag_3PO_4 $Ag_3(PO_4)$

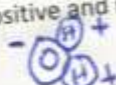

1. Water has a positive and negative half.

2. Opposite charges attract. So water arranges itself to point at positive and negative things

Purpose: How to draw ions in water.

Warmup: Write the correct formula of silver phosphate

Hint: (Ag⁺) with (PO₄³⁻)

~~Ag~~ Ag_3PO_4

1. Water has a positive and negative half.

2. Opposite charges attract. So water arranges itself to point at positive and negative things
