

Homework tonight: Density lab graphing sheet (double points)

Purpose :

Find the connection between type of metal and mass of the metal.

Warmup

metal name	mass (g)	water (mL)	water + metal (mL)	volume of the metal (mL)

Announcements:

The tests will be in Infinite Campus by sundown Saturday.

Extra credit for spirit week (10 days from now)

Today

- A. In seats: Genest shows how to do the lab
- B. Walk around, get “clock partners”
- C. Trade your “clock partners” for a metal chunk
- D. Measure metal chunk into your notebook.
- E. Do a different metal chunk
- F. Put back your equipment and metal
- G. Submit your lab data using a smart phone at genest.weebly.com LAB DATA BLOG
- H. Get a graphing instruction sheet . Follow instructions. The graphs are due Monday.
