textbook reading	calculations	Bunsen Burner Lab		Quiz 3
in the computer room -- review	Test 3			

Purpose:

asdf?

WARMUP:

A pie from the oven that is cool enough to hold can burn you when you bite it because the specific heat of “crust” is 0.100 but the specific heat of the water in the filling is _____ [get the number from your table]

WHAT WE DID

WE HEATED TWO SUBSTANCES
BY HOLDING THEM IN OUR HANDS.

WHAT HAPPENED

THE ICE STAYED COLD.
THE METAL WARMED UP
A LOT.

~~THE~~ BIG QUESTION

WHY DO DIFFERENT SUBSTANCES
HEAT UP AT DIFFERENT
RATES?
